Nginx Proxy Manager SSL Diagnostic Kit

Free preview | three routes | one page

WHAT IS INSIDE

A **The site returns 502 after a restart**
NPM is up, but the proxy host cannot reach its upstream.

B **The certificate will not issue or renew**
HTTP-01/DNS-01 fails, or the certificate is expired.

C **It worked before a Docker or NPM update**
A working proxy host broke after an update or network change.

For Nginx Proxy Manager. Full kit: multi-page guide, fillable worksheet, and retest/recovery checklist.

The full kit is a download. Live one-to-one help is separate, through Request a quote.
